

Survivor of Three Near-Death Experiences
New York Times Bestselling Author
World Renowned Psychic

DANNION BRINKLEY

Dannion Brinkley is the New York Times best selling author of *Saved by the Light* and *At Peace in the Light*. His latest literary classic, co-authored with his wife, **Kathryn Brinkley**, is entitled, *The Secrets of the Light: Lessons from Heaven*. Dannion's first bestseller, *Saved by the Light*, spent **26 weeks on the New York Times bestseller's list** and was made into a television motion picture by the Fox Network and has been seen by tens of millions of people, in over 30 countries, since 1995. To this day, it remains the highest rated made for television movie in Fox's history, making Dannion a very popular radio and television guest. He has appeared on **Oprah, Larry King LIVE, Dateline, Coast to Coast with George Noory, TLC, The Morning Show and Discovery Channel - just to name a few.**

Dannion is loved and respected worldwide for his inspirational lectures on the Near-Death Experience, Hospice Care, Alternative Healing Practices, and Self-Awareness. Since 1977, Dannion has worked diligently, looking for the best way to integrate conventional and complementary medicine. Having survived numerous brushes with death, Dannion is an expert in the dying process. He was struck twice by lightning and has since survived heart failure, open-heart surgery, ruptured subdural hematomas, brain surgery, and a massive grand mal seizure.

That first lightning strike, in 1975, radically changed his life. After enduring the arduous two years it took for him to learn to walk and feed himself again, Dannion became a hospice and nursing home volunteer in 1978. In the past 30 years of volunteer service, he has been at the bedside of over 350 people at their moment of death, and with more than 1,800 people during their final days, accruing more than 25,000 hours of service at the bedside.

With thirty years of experience in end of life care, Dannion is considered an expert in the field. So as the direct result of his volunteer training, in 1997, Dannion co-founded **The Twilight Brigade/Compassion In Action**. Today, it is one of our nation's largest non-profit organizations dedicated to the training of volunteers who serve as transition technicians at the bedside of our country's priceless and beloved American war veterans. His wife, **Kathryn, is president of the organization**. Since its inception, **The Twilight Brigade** has recruited nearly 6,000 volunteers who have accrued more than 250,000 reported hours at the bedside. With more than 76 million Baby Boomers now confronting the mortality of family members and friends, many of whom are Veterans, this program is providing a much-needed link to assure quality in end-of-life care. Having honorably served in the Marine Corps, Brinkley's profound commitment to 'death with dignity' has inspired him to successfully devote his life to the creation of a reality where "no veteran need die alone." Being recognized as a true American hero, on behalf of our Veterans, in 2007 Dannion was awarded the President's Lifetime Achievement Award for Outstanding Volunteer Service.
