

Gini Gentry - Toltec Spirit Guide

Known as the *Nagual Woman*, Gini Gentry is the female spiritual leader and guardian of the Toltec wisdom traditions. While her teachings are anchored in a mastery of ancient Toltec wisdom, her great strength has been her ability to synthesize the universal truths of *all* sacred traditions, and to approach and interpret these truths from the female aspect of the Great Mystery

Gini's unique voice has inspired thousands of spiritual seekers to discover the modern day relevance of the idea of awakening. She was the midwife of the New York Times best-selling book, *The Four Agreements*, which served to introduce the public at large to the mystical yet practical teachings of the Toltec way.

Her own best selling book - *Dreaming Down Heaven* - has been met with rave critical reviews for the innovative "book within a book" format she uses to tell the story of a young woman's sacred quest - through the disappointments and trials of her life to the discovery of a magical book of wisdom that affords her a peak behind the curtains of what Gini calls "The Magical Theater" of her life.

From her home at the *Garden of the Goddess* - the spiritual retreat center she founded near Santa Fe, New Mexico - Gini continues to lead spiritual journeys to sacred sites around the world, and conducts a lively schedule of workshops, lectures, media appearances and personal residency intensives, as well as teaching via social media.

Her deep commitment to revealing the love and outrageous joy that is our divine birthright has made Gini a "cultural treasure" of the world wide spiritual community. Her website is www.ginigentry.com.
